

Ka/W-SACR operations

Submitted by nitin on Thu, 04/21/2011 - 21:34

- [DOE Ka/W](#)

Flight Date:

Thursday, April 21, 2011

Status:

Red

The pedestal is not fully functional. The radar does not operate in scanning mode. Currently Ka/W-SACR is operating in a zenith pointing mode with both moments and spectra being stored. The moments files does not have the correct calibration applied to it yet.
